Software Engineering Principles

Autumn 2016

Mandatory Exercise 3

Lecturer: Stefan Hallerstede `<sha@eng.au.dk>`,

Instructor: Miran Hasanagic `<miran.hasanagic@eng.au.dk>`

20 September 2016

Hand-in: 27 September 2016

Architecture

Problems

(1) Specify a software architecture for the microwave oven controller.

(2) Trace the requirements into the components of the software architecture.

(3) Specify a configuration management strategy for the microwave oven software.

(4) Devise a strategy for maintenance and reuse. Your software is supposed to be used for similar products in the future.
